

Solving the health care puzzle ... right in your neighborhood

Miami-Dade & Broward's Community Health Centers
Celebrate

National Community Health Center Week

August 11-15, 2008

With a rich history that stretches back nearly a half-century in South Florida, community health centers have been the stable medical home for hundreds of thousands of patients – providing quality health care that is both accessible and affordable.

Join us in our celebration of health, heroes and hope!

Community health centers here in South Florida and across the nation are helping to solve the health care puzzle - right in your neighborhood by

- Providing care to uninsured, underserved and minority populations.
- Saving billions of dollars and thousands of lives through preventative care and outreach programs.
- Narrowing health care disparities for poor and minority patients.
- Caring for special groups such as farm workers, HIV patients, needy children at school-based clinics and the homeless.
- Providing a wide range of specialized care, including pediatrics, family medicine, OB/GYN, dental, behavioral health and substance abuse, pharmacy and radiology.
